DIMENSIONAL ART

DIMENSIONAL WALL ART INSPIRED BY EARTH & SCULPTURE

This collection celebrates texture, movement, and materiality—crafted in layered relief and sculptural depth. From botanically inspired florals to fossil-like woodgrain impressions, our dimensional works live between fine art and interior architecture. Each piece is made to capture shadow, shift with light, and bring natural rhythm to interior space.

Dimensional Layered Canvas Art Collection

SCULPTURAL BOTANICAL ART FOR DESIGNERS, RETAILERS, AND HOSPITALITY SPACES

The Golden Blossom collection redefines floral wall décor through sculptural craftsmanship. Designed to bridge the worlds of fine art and dimensional texture, each piece is hand-assembled with layered canvas elements—highlighting botanical motifs like etched fronds, unfolding petals, and intricate leaves. These 3D floral artworks create real shadow play and tactile depth, offering a gallery-like presence on any wall. The layered construction elevates standard floral prints into something more architectural—ideal for upscale interiors where softness and structure coexist.

Tree Rings Wall Art Collection

A MEMORY OF NATURE, FRAMED IN FORM AND TEXTURE

The Tree Rings Wall Art Collection captures the quiet strength of nature through sculpted birchwood impressions that echo the organic rhythm of time. Inspired by the inner story of trees, each piece is etched into the surface with fossilized detail, turning wood grain into sculptural art that honors natural imperfection and meditative stillness. Now available in curated sets of 3, 5, 7, or 9, the collection makes it easier than ever for designers and buyers to create balanced, ready-to-install wall compositions that bring organic depth and dimension to any project.

This dimensional series is offered in two unique presentations:

The Classic Tree Rings feature organic, round birchwood forms with multiple return depths that emphasize textural relief through open-edge craftsmanship. Offered in pre-arranged sets of 3, 5, 7, or 9, these pieces are ideal for minimalist walls, gallery-style groupings, or layered organic compositions across residential and commercial spaces.

The Shadow Box Tree Rings reframe the design in a deeper, architectural setting, preserving the silhouette inside a clean acrylic-front frame for a curated, museum-inspired effect.
